The AlphaLink sync service runs every minute, meaning that all Sage data within Act! is live, including your Sage product list and customer information, allowing you to create quotes with confidence.

Live Pricing

Live Stock Levels

Live Customer Info

Access live product pricing information when producing quotes. Any pricing changes made within Sage will be synchronised to Act!

Access live stock information, giving you peace of mind when creating quotations, ensuring that you can fulfil the order before you quote!

Identify whether a customer account is on hold, or whether they have available credit, before proceeding with an order!

Once quoted, convert your Act! Opportunities to Sage Orders/Invoices at the click of a button!
