

Factsheet

Sage Intacct Manufacturing

Digitally transform your manufacturing operations and finances. Sage Intacct Manufacturing is a cloud native platform for growing medium-sized discrete manufacturers.

Modernising manufacturing

Sage Intacct Manufacturing provides a cloud native solution that helps manufacturers gain real time visibility into their entire chain of operations from purchasing, production, inventory to sales. By combining Sage Intacct Manufacturing with Sage Intacct you can comprehensively manage financials and accounting, manufacturing, and operations through a single solution. Sage Intacct Manufacturing is designed to scale and offers unrivalled integration and customisation capabilities to discrete manufacturers.

Sage

Who is Sage Intacct Manufacturing for?

Sage Intacct Manufacturing is designed to address operational and financial management concerns specific to discrete manufacturing using advanced cloud solutions. If you fall into any of the following categories, then it is for you:

- Machine manufacturing.
- Electrical equipment, appliance, and component manufacturing.
- Fabricated metal product manufacturing.
- Computer and electronic product manufacturing.
- Miscellaneous manufacturing including: medical equipment, and supplies, manufacturing and others—including jewellery, sporting, toy, and office supplies.

Key features

- Comprehensive operations functionalities: Bill of Materials, resource planning, routing, cost control, inventory management, work order planning, costing, and tracking.
- Customisable and automated dashboards.
- Multi-currency.
- Multi-language.
- Powered by APIs.
- Guided contextual workflow.

Manufacturing processes are complex and require specialist staff. Sage Intacct Manufacturing provides real-time visibility of information that is vital to ensure efficient operations.

Key benefits:

Monitor and streamline operations

- Accurately and efficiently design and manage items with Bill of Materials and routings, through intelligent operations tooling, to ensure coordinated shop floor operations.
- Provide quality assurance beyond conformance with industry adaptable user experiences delivering transparency and simplicity. Deliver timely insights to help rapidly design change.
- Generate early warnings on issues, with exceptional ease of use to drive effective and efficient schedule planning.

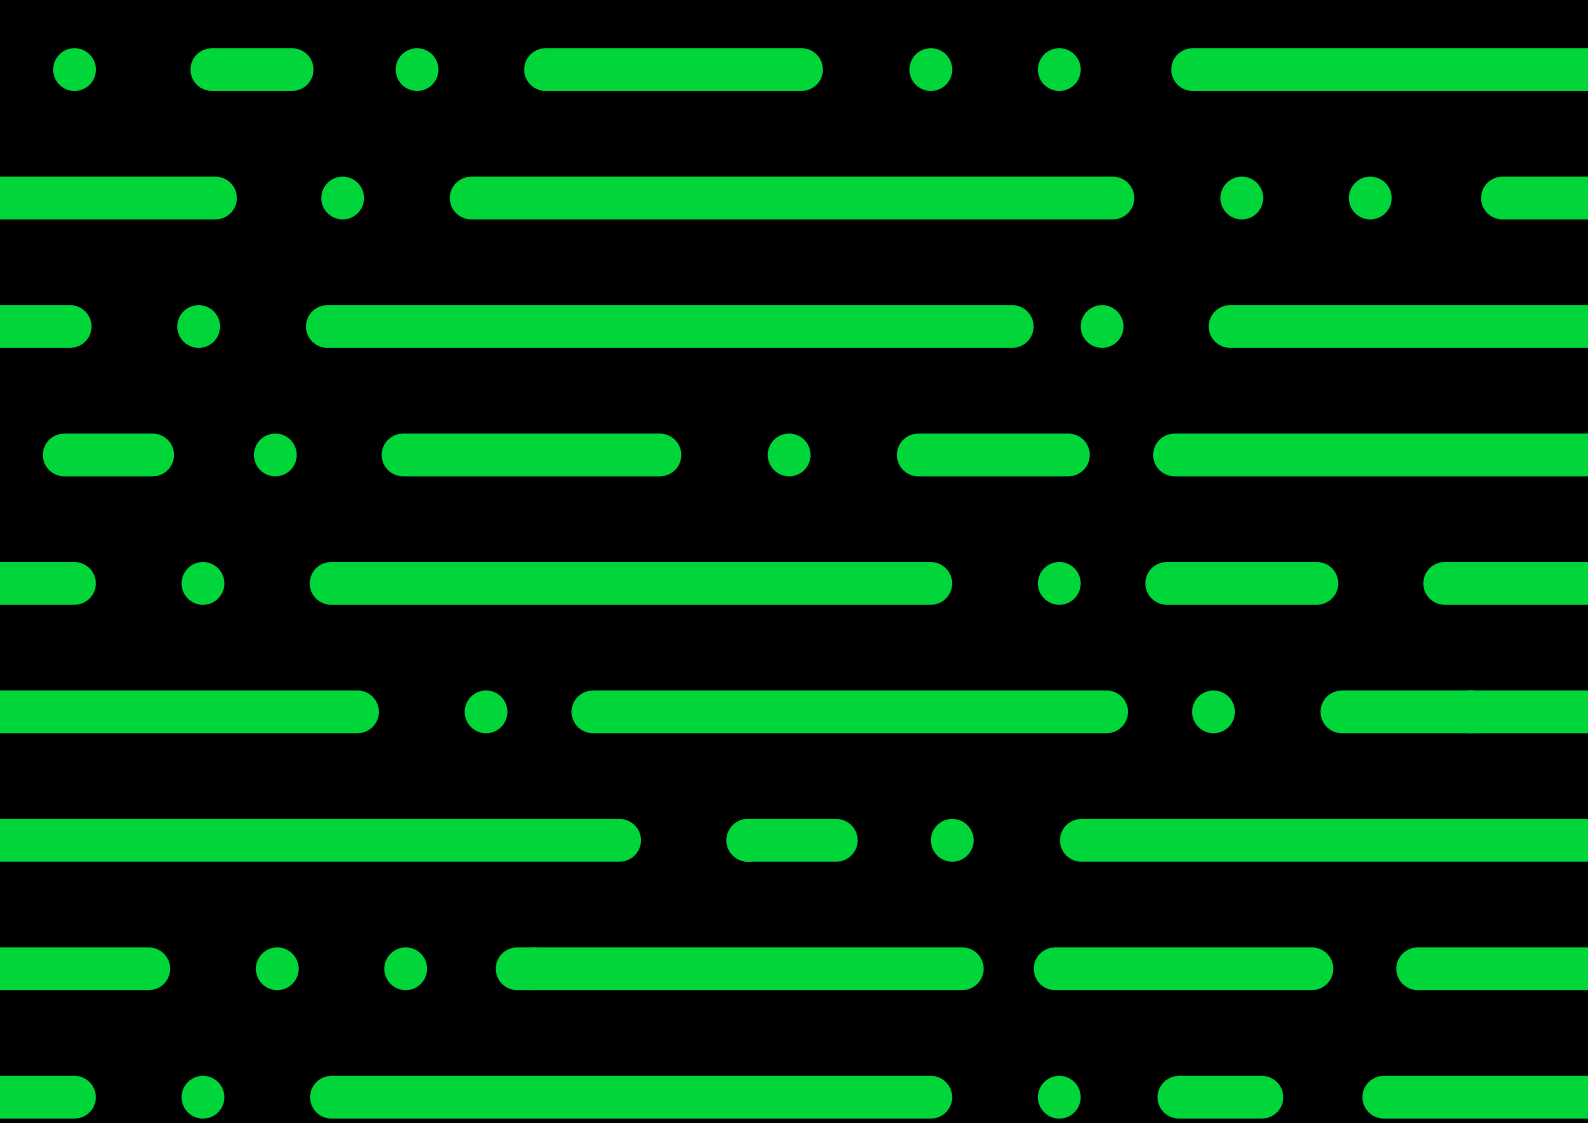

Stay on budget and grow your business

- Efficiently manage all aspects of making and assembling products, to effectively use resources and manage costs.
- Increase profitability with advanced cost controls.
- Seamless visibility of financials to intelligently manage budget and costs.

Digitise your manufacturing operations

Transform your business with Sage Intacct Manufacturing. Track your businesses end-to-end operations; from inventory to shipments and more in real-time, and securely.
