Save Your Manufacturing Business Time & Money With Cim50

Take advantage of streamlined processing, advanced costing functionality, and easy-to-use workflows with Cim50 Manufacturing for Sage 50 Accounts. Cim50 is a modular solution and the recommended replacement for Sage 50 Manufacturing.

Cim50 Manufacturing Modules

Calculate the materials needed to manufacture and meet demands.

Functionality includes: Just In Time, Demand Schedule, MRP, Sales Forecast, Make To Stock, Rescheduling, Dashboards, Resource Calendar

Quotations

Estimate costs and calculate total selling prices on manufactured items.

Functionality includes: Configure Built Items, Revision History, Products & Services, Documentation, Profit & Loss, Order Processing, Multi-Currency

Works Orders

Control built products through each stage of the manufacturing process.

Functionality includes: WIP, Shop Floor Documents, Capacity Planning, Subcontracting, Costing, One Off Works Orders, Carbon Emissions, Work To List, Audit Log

Shop Floor Data Capture

Carry out all stock transactions and operation times using barcoding.

Functionality includes: Stock Movements, Goods Receipt, Despatch, Stocktake, BOM Build, Works Order Materials, Operation Processing, Subcontract, Completion

AlphaLogix

Graphical Scheduler

Take control of your production planning with an easy-to-use drag and drop interface.

Functionality includes: Conflict Management, Resource Utilisation, Works Order Planning, Dynamic Colour Coding, Dependency Management

Pricing

Cim50 is available on a monthly subscription basis, with 30 days end of month cancellation. The typical subscription price is £295/€345 per month and is dependent on the number of modules and concurrent user licences required. The subscription includes the licence to use the software, software updates and technical support. To assist with a successful implementation of the Cim50 solution, it is recommended a program of service days is taken, the number and cost of these will depend on specific business requirements and modules/users subscribed to.
