

AlphaSMS

Send text messages from your CRM and Accounts Software

Designed for
act!

Developed by
AlphaLogix

Tracked Sending

Automatically creates a history of messages sent from your software against the relevant contact in the Notes and History.

Cost Effective

Send SMS text messages to individual contacts or in bulk to groups and campaign members – no SIM cards or contracts required!

Flexible Scheduling

Schedule SMS text messages to be sent out at specified times and dates, individually or in batch.

Client Testimonial

"Historically we needed to copy and paste the SMS information from our CRM system into an online text system, which could take several minutes per message.

Now we just click one button within CRM and it's done automatically, with a complete log of all messages sent and received. This has saved us a substantial amount of time on a daily basis and ensures the accuracy of the message sent. AlphaSMS is fantastic value for money."

Katrina Needham,
Transport Administrator

Cost-effective communication with your staff and customers...

- Send SMS text messages directly from Act!
- An easy to use system that can be developed to meet your business requirements.
- Access our SMS portal in your software to see full details of all messages sent.
- SMS content may be generated from standard or customised fields within your software. This information can be contextual from different areas of your Act! or Sage product.
