SAGE 200 CONSULTANT - Implementation

We have an exciting opportunity for a Sage 200 Implementation Consultant to join our team of Sage experts who are dynamic individuals with an outlook of excellence & success. Training will be provided if Sage 200 accreditations are not already held.

Established in 1995, AlphaLogix is one of the largest accredited Sage 200 Business Partners and Sage 200 Software Developers in the UK.

We are experiencing rapid growth in our Sage 200 client base and we are seeking an additional Sage 200 Implementation Consultant to join for our expert team and hit the ground running.

Main responsibilities:

- Scoping client's requirements and producing documentation
- Working closely with the commercial team to ensure the right product fit
- Demonstrate core and additional products to clients and potential clients
- Configure software and implementation of solutions. Including training, data migration
- Project management to ensure projects are delivered on time, within budget and within scope
- Remote telephone support

Practical experience the following business areas:

- Accounting - essential
- Experience using Sage 200 - essential
- Project management - desired
- Purchasing, stock accounting and ordering - desired
- Good understanding of basic business processes - essential
- IT technical skills and understanding - desired

Experience of the following would be desirable, but is not essential as training can be provided

- Manufacturing
- CRM
- Project Accounting
- Sicon Module
- Accreditations would be highly advantageous, but training will be given

We offer:

- Exciting professional and personal development opportunities
- Friendly and professional working environment
- Offices set in an idyllic location with free parking
- Opportunity to work with industry leading Technical Consultants
- Possibility of further studies

Salary negotiable depending on qualifications and experience

To apply for this role please send your CV to jobs@alphalogix.co.uk
